

A. Information to be displayed

1. The information that will be displayed on the e-label and information that will remain in the user manual is shown below:

Information	on E-label	In Manual
FCC ID number	Yes	
DoC logo	No	
15.19 statement (“ <i>This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.</i> ”)		Yes
Class A / B Digital Device user manual statements ¹		Yes
DoC declaration ¹		Yes
Caution to the user that changes, or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment ¹		Yes
Describe any other FCC regulatory information included in e-label ¹		
¹ If the e-label includes information typically included in the manual then the e-label shall clearly differentiate between information required to be on the device’s surface and information required to be in the manual – refer to 784748 D02 e labelling v01 section II D 3(b)		

Image of the e-label is provided below:

Model 1927, CAN ICES-3 (B)/NMB-3(B), FCC ID C3K1927, Contains FCC ID C3K1956 as Change of ID to PD9AX200D2L, IC 3048A-1927, Contains IC 3048A-1956. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause

B. Access to the required information on the e-label

1. Users can access the information in no more than three steps in a device's menu. The actual steps are:

- Launch the app -> Select Safety, Regulatory and Warranty Info tab -> Select Regulatory information tab

No special access codes or permissions are required to go through the above steps beyond entering a user-defined password to protect against unauthorized access to the device.

2. The information is stored on the device, no special accessories or supplemental plug-ins (*e.g.*, a SIM/USIM card) are required to access the information.

3. Users are provided specific instructions on how to access the information. The information is provided in the Quick Start Guide, page number 10. Image is provided below

Recycling and regulatory information

You can find important recycling and regulatory information about your device online at aka.ms/device-regulatory or in Device app using the following steps: Open the Device app, select Safety, regulatory, and warranty info tab, and select Regulatory information tab.

C. Labeling for Importation and Purchasing

Products utilizing e-labels are required to have a physical label on the product at the time of importation, marketing and sales. For devices imported in bulk and not packaged individually, a removable adhesive label or, for devices in protective bags, a label on the bags is acceptable for this purpose. Any removable label shall be of a type intended to survive normal shipping and handling and must only be removed by the customer after purchase. For devices imported already in individual packages ready for sale, the information may alternatively be provided on the package. It shall contain:

1. The FCC ID and/or the DoC logo (if applicable); and
2. Any other information required by specific rule to be provided on the surface of the product unless such information is permitted to be included in the User's manual or other packaging inserts.

Where is the label located?

The label is printed on the packaging or flyer. The flyer is included in the packaging.

Is the label removable?

No, the label is not removable.

What information will be on the label?

Information	On Package/Product?
IC Certification number	Yes
Model identification number (model number)	Yes
RSS GEN or other mandatory user information required to be on the surface of the device	Yes
Provide sample of information to be displayed embedded in this document or as a separate document.	

D. Other considerations

1. The above information must be programmed by the responsible party and the information must be secured in such a manner that third parties cannot modify it.

The user cannot modify information and the information is pre-programmed by the grantee.

2. All the applicable regulatory information required on the packaging or user instructions must be provided according to the rules even if it is displayed electronically.

All other information is provided in the user manual.
